**North Dakota State College of Science**

**Clem Buzick**

In 2007, Clem purchased her first long arm quilting machine, thinking she might quilt a top for a friend once in a while. Shortly thereafter she had 30 quilts stacked up. After 26 years as a hair dresser,

she hung up her shears, picked up the sewing scissors, and never turned back! Clem quilts full time in her Creative Dimensions Quilt Studio in Fargo, completing over 150 quilts for clients each year. She has also competed in many major shows across the US, winning awards and international recognition! In her own words, "I love to share my skills, and my crazy story, but I especially LOVE to encourage others along the way!" Join us for two energizing days with our locally-grown national teacher.

**LECTURE**

**Divide and Conquer**

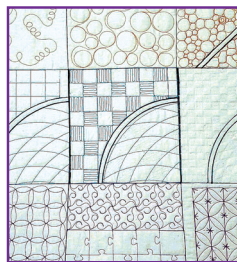

*Saturday, September 21, 1 pm • Free*

Everyone asks how I decide what to quilt on a quilt. Whether a utilitarian quilt or quilt for competition, the process is the same. I love to talk about the process of what designs go into a quilt. I will share my way of breaking down the design process to make it easier for you to design your own quilting.

**WORKSHOPS**
